

# Plays well with others.

ColorEyes™ Display plays nice and makes nice monitor profiles.

ColorEyes Display will work with just about every popular instrument for calibrating monitors. How great is that? So no matter what instrument you own you are no longer locked into lesser software. Simply grab a copy of ColorEyes Display and get the most out of your previous instrument.

**Pick your Device for a reliable ColorEyes profile.**

Use devices from your previous monitor profiling package with ColorEyes Display. New to monitor profiling? Purchase the bundle version with the award winning XRite DTP94 Colorimeter.

**Match LCDs with CRTs in your working environment.**
