Known Compatibility Issues

The following chart lists known issues. When DDC/CI is indicated as supported, software monitor adjustments will be operational.

Controller Chipset	Supplier	Known Issue
G550	Matrox	DDC/CI is supported. Color calibration only works on primary port, not secondary port
G450	Matrox	DDC/CI is supported. Color calibration only works on primary port, not secondary port
Pixel Perfect	Imagine	DDC/CI communication not supported

K2	Graphics	DDC/CI communication not supported
Trident 9750	Trident	DDC/CI is supported, color calibration is not supported
